Frontier Strengthens Management Team

Frontier is pleased to announce the appointment of a team of key technical and financial advisors to the Company. Mr Nurdin Damitov is appointed as Executive Vice President Dr Robert Cameron has been appointed as Vice President, Technical Services, Mr Duncan Gray will act as Frontier's General Counsel and Mr Paul McKay as the Company's Finance Manager. Mr Askhat Mukazhanov is appointed as President, FML Kazakhstan ("FMLK"), Frontier's wholly owned subsidiary. Mr Mike Martin, Dr Peter Pollard, Dr Chris Wilson and Mr Serik Utegen have been appointed as Technical Advisors to the Board.

Mr Nurdin Damitov, Executive Vice President, Frontier Mining Ltd. will be primarily responsible for corporate, legal and government relations in Kazakhstan. Mr. Damitov is currently a Director of Sokol Holdings Inc., where he has been involved in various oil, gas, and mineral consulting activities and IPO's. He has experience of banking and finance from his time as a Director of PriceWaterHouseCoopers (Kazakhstan), as a board member of Halyk Bank and through his work as an Assistant Chairman of the National Securities Commission of the Republic of Kazakhstan. Mr Damitov holds a Law degree from the University of Colombia, New York.

Dr Robert Cameron, Vice President, Technical Services, Frontier Mining Ltd. will be responsible for all of the technical aspects of the Company's operations including exploration, mining, and processing, and will have overall responsibility for the Naimanjal operations. Dr Cameron, was formerly the Worldwide Director of Geostatistics and Mine Planning with Behre Dolbear and has held positions with Terra Tek, Inc., the US Bureau of Mines and was an Associate Professor at the Colorado School of Mines. Dr Cameron is a recognised expert in mineral resource estimation, with 30 years experience in geostatistical analysis of ore reserves, and has provided technical assistance to optimise and improve the cash-flow and operating performance of mining operations in a variety of countries including Colombia, Chile, Russia, and Canada.

Mr Duncan Gray, General Counsel, Frontier Mining Ltd. will be responsible for all corporate and legal activities. Mr. Gray is currently Senior Consultant at Akin Gump Strauss Hauer & Feld LLP ("Akin Gump") and has extensive experience in mining transactions, with a focus in the Former Soviet Union ("FSU"). He brings a wealth of legal experience to the Company, having acted as principal counsel for Kyrgyzaltyn in the development of the Kumtor Gold Project in Kyrgyzstan from 1993 to 1995 as well as for various mining companies and other private investors on other major FSU mining projects. In addition, he has been extensively involved in oil and gas and electric power generation and distribution projects in Kazakhstan. Before joining Akin Gump, Mr. Gray was a

partner in the international corporate and natural resources practice at King & Spalding in Houston and the partner in charge of the Houston office of Mayer Brown Rowe & Maw, where he established the firm's FSU practice.

Mr Paul McKay, Finance Manager, Frontier Mining Ltd. will be responsible for the Company's planning, budgeting, tax, financial audit, and financial management. Mr. McKay is ACCA qualified with 16 years experience in accounting, financial management, business process development and ERP implementations. His experience has largely been gained with multinational corporations across the globe, including five years in the FSU. Mr McKay was recently Principal Consultant for Systems Union before providing consultancy services to Frontier Mining in 2006.

Mr Askhat Mukazhanov, President, FML Kazakhstan was the Company's financial controller and will remain responsible for financial audit, tax, licensing, permitting, and human resources. He was previously Financial Controller with Kazkommerts Group, Kazakhstan's largest private banking and industrial holding group. Mr Mukazhanov has over ten years experience in accounting and financial management, which includes working as an auditor with Deloitte and Touche. Mr Mukazhanov has been involved in audits of multinational corporations across Kazakhstan, Uzbekistan, Kyrgystan and Russia.

Mr Mike Martin, Technical Advisor to the Board, is a Senior Associate and Principal with Behre Dolbear & Company, Inc. who is making his services available to Frontier, with over 40 years of experience in the areas of engineering, operations, management, exploration, acquisitions and development in the mineral industry, principally in the mining of gold, copper, and molybdenum. Mr Martin has had responsibility for open pit mine capital and operating costs, infrastructure, and organisation. In addition, Mr Martin has been responsible for all mining related items, including mine schedules, ore control, mine equipment, cash flow forecast reviews, and site management assessment. For the past 20 years he has primarily been involved with gold mining in the U.S. and fifteen other countries.

Dr Peter Pollard, Technical Advisor to the Board, is an industry recognised expert in porphyry, skarn and high sulphidation Cu-Au mineralisation and associated secondary deposits, and has worked as a consultant at many deposits including Escondida Norte, Grasberg, Oyu Tolgoi, and deposits in the Bingham district. Dr. Pollard also has significant iron-oxide copper-gold experience in Australia, Brazil, Northern Chile, and Peru. Dr Pollard is a Member of the Australian Institute of Mining and Metallurgy and a Fellow of the Society of Economic Geologists.

Dr Chris Wilson, Technical Advisor to the Board, is an independent consultant who has managed a Central Asian portfolio of copper-gold exploration licenses totaling over 11 million hectares. A geologist with over 15 years of varied industry experience, Dr Wilson specialises in the design, implementation and management of grass-roots exploration through to resource definition drilling, area selection and project acquisition, and implementation of best practice and QC/QA. Dr Wilson has previously worked throughout South East Asian, Central Asia and Eastern Europe, and has more recently been focused in the FSU. Dr Wilson is also a Chartered Fellow of the Australian Institute of Mining and Metallurgy and a Fellow of the Society of Economic Geologists.

Mr Serikjan Utegen, Technical Advisor to the Board, is currently a Director of Sokol Holdings, Inc. and Acting Chairman of Sunkar Resources Ltd. Mr Utegen previously held the positions of Director of Operations and then President for KKM Holding JSC developing three oil fields in Western Kazakhstan, and has experience in management of exploration, financing and corporate development. He has worked for a range of Kazakhstan oil companies, including the position of Head of the Transportation Department of KazTransOil National Oil Pipeline Utility of Kazakhstan. Mr Utegen holds a degree in Applied Mathematics from the Al Farabi State University of Kazakhstan.

Brian Savage, CEO of Frontier commented, "I am delighted to welcome these new appointments to Frontier. Their extensive level of experience in both mining and undertaking business in Kazakhstan will make a considerable contribution to current and future project development. They bring an impressive array of skills and experience to our technical and financial team and will be of great value to the Company as we look to develop our project portfolio."

About Frontier Mining Ltd:

Frontier Mining Ltd. is a mineral exploration and development company that was incorporated in the state of Delaware, USA, on August 5, 1998 for the purpose of exploring and developing gold and copper deposits in the Republic of Kazakhstan. Through its subsidiaries and affiliates, Frontier locates, evaluates, acquires, explores and develops mineral properties.

Frontier has two licenses owned by its wholly owned subsidiaries in Kazakhstan. They are the Naimanjal exploration and mining licence, held by FML Kazakhstan, and the Baltemir exploration licence, held by Baltemir LLP. Frontier has one producing gold mine, Naimanjal; one pre-feasibility stage gold project, Koskuduk; and one exploration stage gold prospect, Baltemir.

Frontier also has one potential copper porphyry deposit with associated gold and molybdenum, Baitimir; and several copper/gold prospects along a 25-km trend including both VMS and porphyry types. Metallurgical tests on its Beschoku and Yubileiny copper projects confirm the oxide copper ore is amenable to extraction using low cost SX-EW technology.

Frontier shares are traded on the AIM market of the London Stock Exchange. Frontier has 132,648,563 ordinary shares issued and 6,197,091 outstanding options and warrants, giving 138,845,654 fully diluted ordinary shares.
